- Steam condenser unit (V).

SUPRA

Excellence at the service of Ware Washing

All the SUPRA Hood Type Dishwashers have a double wall construction with the resulting thermal and acoustic insulation, which translates into limited consumption and a quieter working environment. The “soft” control panel, where you can select cycles and visualise temperatures, is available in all models. Sammic SUPRA also offers an extensive catalogue of extras such as drain pumps, incorporated water softener, pressure pumps, steam condenser or the constant temperature rinsing system.

DISHWASHER S-100

2.5 kW wash tank and 7.5 kW boiler

Commercial pass-through dishwasher with a max. loading height of up to 400 mm and 3 wash cycles with thermal cycle delay option included. A stainless steel, top of tank filter system is also included as standard
