PRO

Professional ware-washing with total guarantee

Commercial glass-washers to obtain **professional results with total guarantee**. Electromechanical glasswashers that are **easy and intuitive** to use. Glasswashers with a max. loading height of up to 280mm and an independent boiler in all models. Achieve professional results with **low consumption**.

Sammic PRO glasswashers are equipped with an **easy-to-use** electro-mechanical control panel. With one pre-set wash cycle, they are designed for quick and easy maintenance.

Manufactured from catering grade stainless steel and incorporating **top quality components**, their **double-skinned door** with high efficiency seal ensures **thermal and acoustic insulation**. The door is equipped with a magnetic micro-switch.

Inside the glasswasher, the stainless steel high-performance dispersers ensure an even distribution of wash water without dead zones. Precision positioned water jets guarantee **optimum washing results** for even the most stubbornly stained glasses. The boltless rinse spray arms are very easy to assemble for cleaning and maintenance.

A double filter system provides effective wash pump protection that is easily removed (for maintenance and cleaning) and replaced, without tools. All Sammic PRO glasswashers incorporate a wash tank and an independent rinse boiler.

- High feet kit 140-190mm.

X-TRA

Versatility and Adaptability

Glass-washers with a “soft” control panel and cycle selection. These glasswashers include **cold rinsing facility as standard**. You can also choose extras such as drain pumps or incorporated water softener.

Manufactured from catering grade stainless steel and incorporating top quality components, their double-skinned door with high efficiency seal ensures thermal and acoustic insulation. The door is equipped with a magnetic micro-switch.

Inside the glasswasher, the stainless steel high-performance dispersers ensure an even distribution of wash water without dead zones. Precisely positioned water jets guarantee optimum washing result for even the most stubbornly stained glasses. The boltless rinse spray arms are very easy to assemble for cleaning and maintenance.

Rinse dispersers are stainless steel made, have no screws and offer easy assembly and simple and clean lock.

A double filter system provides effective wash pump protection that is easily removed (for maintenance and cleaning) and replaced, without tools. All Sammic X-TRA glasswashers incorporate a wash tank and an independent rinse boiler.

X-TRA range glasswashers are equipped with stainless steel, top-quality rack holders and guides. All models are equipped with a rinse-aid dispenser, adjustable thermostats in the boiler and thermal cycle delay option. This ensures a minimum final rinse temperature of 85°C at the beginning of each rinse cycle.

Extremely easy to use, X-TRA range glasswashers have been designed for easy and fast on-site maintenance.

GLASSWASHER X-35

To wash 30 baskets/hour. 350x350mm racks. Max. loading height: 220mm.

SUPRA

Excellence at the service of Ware Washing

Glasswashers **fully double skinned** resulting in **thermal and acoustic insulation**, which translates into limited consumption and a quieter working environment. "Soft" control panel where you can **select cycles** and **visualise temperatures**. **Cold rinse facility** is included.

Sammic SUPRA also offers an extensive catalogue of extras such as drain pumps or incorporated water softener.

Sammic SUPRA glasswashers offer the best performance to wash glasses, cups, cutlery, small plates, etc. Equipped with a "soft" electronic, watertight control panel, they offer 3 wash cycles with final cold rinse option. Designed for easy and intuitive use, the control panel is equipped with wash and rinse temperature display.

Sammic SUPRA glasswashers are manufactured from catering grade AISI 304 2B stainless steel and incorporate top quality components. Their double-skinned construction offers high efficiency seal on the door with their resulting thermal and acousting insulation and energy saving features. The door is equipped with a magnetic safety micro-switch.

Inside the glasswasher, the stainless steel high-performance dispersers ensure an even distribution of wash water without dead zones. Precision positioned water jets guarantee optimum washing result for even the most stubbornly stained glasses. The boltless rinse spray arms are very easy to assemble for cleaning and maintenance.

Rinse dispersers are stainless steel made, have no screws and offer easy assembly and simple and clean lock.

A double filter system provides effective wash pump protection. It is easily removable (for maintenance and cleaning) and can be replaced without tools. All Sammic SUPRA glasswashers are equipped with an independent rinse boiler.

The tank, with rounded finish, has no sharp corners, avoiding accumulation of dirt. SUPRA range glasswashers are equipped with stainless steel, top-quality rack holders and guides. All models are equipped with a rinse-aid dispenser, adjustable thermostats in the boiler and thermal cycle delay option. This ensures a minimum final rinse temperature of 85°C at the beginning of each rinse cycle

Extremely easy to use, SUPRA range glasswashers have been designed for easy and fast on-site maintenance.
