

## Pot Washers

### Utensil Washers

Ware-washers with large-capacity and high pressure to ensure optimal washing results and hygiene.

Sammic pot washers are ideal to wash big sized pots and wares. Powerful and high pressure: specially designed for restaurants, ice-cream shops, patisseries and butchers..

Constructed from stainless steel. All models are double skinned machines, allowing for silent working and reduction of thermal dispersions.

Door divided in two parts, perfectly counterbalanced, easy to handle and with double-skinned lower section. Stainless steel pull-out tray makes easier to load and unload the pots and wares. Safety micro switch at the door.

Wash tank without corners to avoid dirt accumulation in angles. Easy to remove stamped wash dispersers in stainless steel tubes.

These models are complete with a rinsing boiler and a booster pump.

The SU models with electronic control panel with LED showing wash and rinse temperature. These models have a Thermal Cycle Delay Option included: guarantees a minimum rinsing temperature of 85°C at the beginning of the cycle.

LU-130 is equipped with tank and boiler temperature display.

All Sammic utensil washers are complete with 1 stainless steel basket and insert for 4 trays.

B models are equipped with drain pump and non-return valve.
